

Test data

Date: 2017/3/24

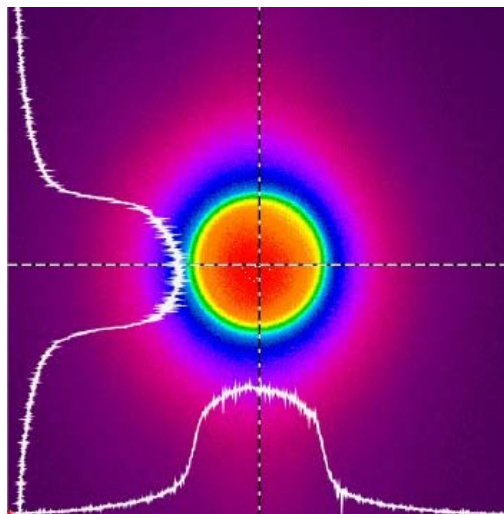

Module type	FL-SP11-9-270-808	SN	FL000001
-------------	-------------------	----	----------

1. Static output

Test condition	Cavity length:300mm, Back mirror:100%, Front mirror:80%, Q-switch: not used; Polarizer: not used; Aperture: not used; Water temperature: 25℃;
----------------	--

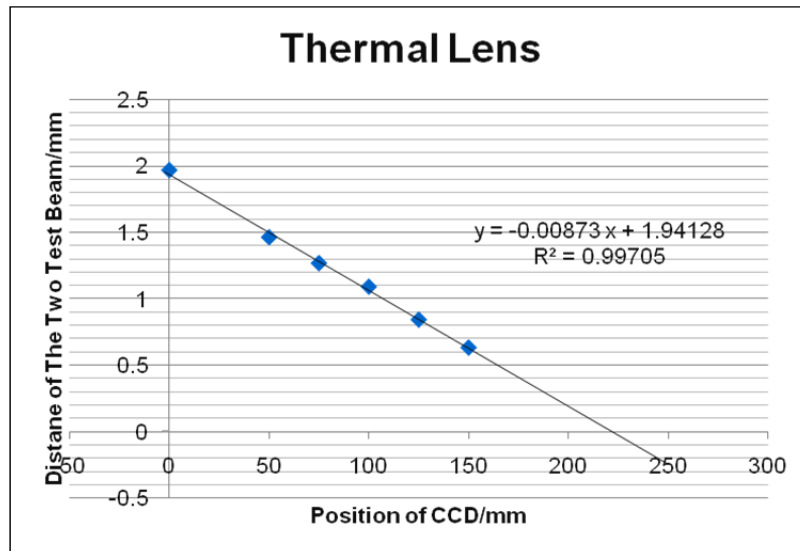

2. Luminescence profile

3. Thermal lens

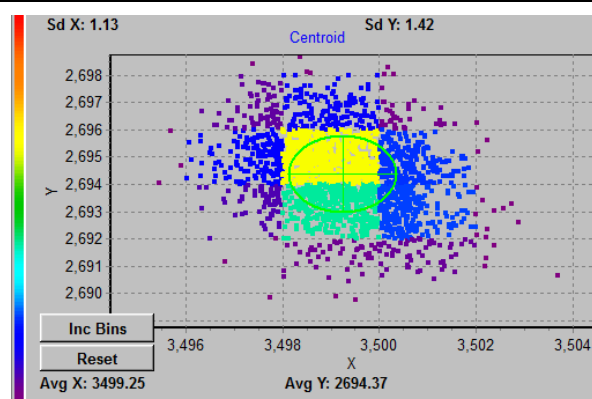

Test condition	Output power 75W @ Diode current 27A
----------------	--------------------------------------

222.36mm,4.5diopter

3. Pointing stability

Test condition	Diode current 21A; Water temperature: 25°C;
----------------	---

Pointing stability
